Assistance cancelled by World Bank

910. DR. MURLI MANOHAR JOSHI:
SHRI TRILOKI NATH CHATURVEDI:

Will the Minister of FINANCE be pleased to state:

(a) the State-wise names ot projects whose loans/assistance has

been cancelled by the World Bank during 1991, 1992, 1993 and so far in 1994 together with the amount involved and reasons for cancellation; and

(b) what steps Government have taken in each case to meet the financial requirements of the projects?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M.V. CHANDRASHEKARA MURTHY): (a) A detailed list of World Bank aided projects cancelled during 1991, 1992, 1993 and so far in 1994 is at statement *(see* below),

(b) In a large number of cases, amount cancelled relate to savings arising in the loan amount due to devaluation of the rupee. The same' physical scope of the project would be financed by the uncancelled portion of the loan. In a few cases, some loan amount was cancelled due to slow implementation of the project and the decision on the amount to be cancelled was taken based on the most optimistic estimate of absorption of World Bank loan over the remaining project period, even after allowing for possible extension. The Government is paying commitment charges to the World Bank on the unutilised portion of the committed aid and the decision to cancel was taken with a view to save this wasteful expenditure by the Government. It was expected that the remaining few activities, if any, would be financed by the project authorities out of their own resources.
